EDUCATION

University of Wollongong, Singapore
Bachelor of Science in Big Data

Apr 2024 ~ Mar 2026

Singapore Institute of Management, Singapore
Diploma in Information Technology

Apr 2023 ~ Mar 2024

CCA/LEADERSHIP EXPERIENCE

Marketing Subcommittee of Multicultural Mix Club, Singapore Institute of Management

Apr 2024 – Mar 2025

- Promoted the club through video filming and editing, resulting in a 20% increase in followers
- Conducted beginner Korean lessons for 40 students, covering Hangul, basic grammar, vocabulary, sentence patterns, and situational verbs

Korean Association of Singapore
Event Committee Member

July 2024 – Dec 2025

- Designed the event poster and created the registration link to recruit participants
- Wrote the official event article several times for publication in the association's quarterly magazine
- Produced a post-event recap video highlighting the activities and participation

VOLUNTEER EXPERIENCE

Heartware Network

- Contributed to “We Love Our Teachers” campaign by packing and delivering appreciation gifts. 24th Aug 2024
- Assisted with event setup, visitor guidance, and on-site coordination to ensure smooth festival operation during Istana Open House 2025 (NDP) 3rd Aug 2025

Korean Association in Singapore

Event Staff

- Assisted in the operations of the Korean Festival, handling participant registration and booth support 7th Sep 2024
- Participated in cross-cultural volunteer team supporting the Korea–Singapore 50th Anniversary community service activities in collaboration with Willing Hearts, contributing to event execution and community engagement 11th Oct 2025

PROJECT EXPERIENCE

Pet Heaven – Adoption & Volunteer Web App

Full-Stack Developer

Oct 2024 – Jan 2025

- Built forms for adoption, volunteer, and donation with server-side validation and DB persistence; basic admin review flow.

HDB Resale Price Forecasting (Singapore)

ML Engineer

Apr 2025 – Jun 2025

- Used time-series validation to select the best model and forecasted HDB resale prices for Jun–Dec 2025.

NYC Energy Equity Dashboard (Hackathon Finalist)

Data Engineer

July 2025 – Aug 2025

- Integrated utility + census data to map energy burden; built ROI module for solar+storage and efficiency program.
- Used Prophet to generate 36-month consumption forecasts (actual vs. reduced scenarios) and compared outcomes to recommend actionable policies.

Mood Diary – AI-Powered Emotional Journal Prototype

AI Application Developer

Oct 2025 – Nov 2025

- Developed an AI-based diary prototype that analyzes user-written entries and returns JSON-formatted emotional feedback (sentiment and confidence).
- Integrated GPT API through the CallGPT function and implemented features such as emotion history chart, sorting (newest/oldest), and “Load More” diary view.
- Designed an intuitive interface for users to reflect on their emotions and visualize mood trends over time.

HONORS & AWARDS

Impetus Awards, Singapore Institute of Management (SIM)

July 2025

- Awarded at the Student Leaders Awards in recognition of meaningful contribution to student life and community engagement

AI x City Climate Action Hackathon 2025 – Finalist

Sep 2025

- Selected as a finalist for presenting a data-driven climate solution addressing urban sustainability challenges, and delivered a pitch presentation based on my submitted project proposal
